

QUALITY WATER SOLUTIONS WATER TREATMENT 518-785-6800

Bicarbonate Mixing / Delivery Solutions

It's finally here! The all new automated Bicarbonate Mixing / Delivery system by Quality Water Solutions, LLC. This is a state of the art mixer that's affordable and will fit the needs of any facility mixing and distributing their own bicarb.

Touch Screen Display

It offers an easy to use touch screen to operate all the functions of mixing, sanitizing, and distribution. You select how much water you want and add your bicarb. It's that easy.

Installation is even easier. This is a 3 piece design that can fit through a standard door. Just set in place connect a couple of unions, hookup your supply and return to the distribution tank, connect the RO water and it's ready to go!
